RE: NOTICE OF REDDYPORT® PRODUCT RELEASE AND DISCONTINUATION

Dear ReddyPort customer,

Since our launch in 2021, ReddyPort has been at the forefront of creating essential devices dedicated to enabling a clinician's ability to provide routine oral care for BiPAP® patients without the need for noninvasive mask removal or risk of lung compliance. Through the course of our initial growth and development, ReddyPort has launched a number of new products and product enhancements that have gained widespread clinical acceptance.

As of the end of 2023, ReddyPort is proud to have helped over 15,000 BiPAP patients experience dry mouth relief and routine oral care without mask removal or the risk of lung compliance.

Based on input from customers and leading clinicians, ReddyPort has launched a new line of Starter Kits options that include select ReddyPort Elbows with a Yankauer or swab appliance. The new line of Starter Kits will be available on **May 1, 2024**.

ReddyPort's new line of Starter Kits (see item #'s and descriptions below) are configured to initiate oral access from which our 24-hour oral care kit or individual appliances can be used to help manage the specific oral care needs of the BiPAP patient. All patients need oral care but not all patients need long-term oral care. ReddyPort's individually packaged appliances (Prep Packs, Toothbrush Packs or Suction Swab Packs) can be used for short-term patients that are not expected to be on BiPAP therapy for a full 24-hour duration. Also, our individual packaged appliances can be used on demand to complement the oral care needs of patients that have oral care needs that exceed the contents of our Q4 24-hour Kit.

With the inclusion of the ReddyPort Elbow in our new line of Starter Kits, ReddyPort will end the sale of our line of individually packaged ReddyPort Elbows on **June 1, 2024**.

As with any advancement in product offerings, ReddyPort stands ready to help our customers through the transition with product support and education. If you have questions or feedback, please do not hesitate to reach out to me directly.

Regards,

Pat Patrick
